Rich,

Hello,

Wondering if anything happening with Pavillion public hearing?

Thank you.

Rich,

Hello again. Was looking at a PhD program in WY and wondering if there might be any programs for EPA funding concerning produced water in the O&G industries. I know there have been cut-backs in Washington, so wasn't sure if EPA has any programs related to hydraulic fracturing yet.

Thank you.

Jen Wilson

Jennifer, thanks for your email. There will likely be a public meeting in Cheyenne associated with the peer review of the draft report. No date set yet, but likely late Spring timeframe. The website should be updated with info when a date is set.

Rich,

Greetings. Was reading Region 8 website documents on Pavillion, WY groundwater investigation and note that a public informational meeting in Cheyenne is scheduled due to release of current draft.

Do you have any information on scheduled date?

Thank you.

Regards,

Jennifer Wilson
